452 Fifth Avenue, New York, 10018,
United States.

Poland Representative

ProService Agent Transferowy Sp. Z.o.o.
436 Pulawska Street,
Warszawa,
Poland.

Note on the risk management

HSBC Investment Funds (Luxembourg) S.A. (the "Management Company") uses a risk management process that allows monitoring of the risk of the portfolio positions and their share of the overall risk profile of the portfolios of HSBC Portfolios (the "Company") at any time. In accordance with the Law of 17 December 2010 on undertakings for collective investment, as amended (the "2010 Law"), and the applicable regulatory requirements of the Commission de Surveillance du Secteur Financier ("CSSF"), the Management Company reports to the CSSF on a regular basis on the risk management process. The Management Company shall monitor, on the basis of appropriate and reasonable methods, that the Company's global exposure relating to derivative instruments does not exceed the total net asset value of its portfolio.

For the Company, the Management Company uses the "commitment approach" for the calculation of the global exposure. The "commitment approach" is based on converting the value of each financial derivative instrument position into the market value of an equivalent position in the underlying asset of that derivative. Netting and hedging might be considered for derivative financial instruments and their underlying assets. The sum of these underlying equivalents must not exceed the net asset value of the portfolio.

Statement of changes in the investment portfolio

A list, specifying for each portfolio total purchases and sales transacted during the period under review, may be obtained, upon request, at the registered office of the Company.

Notes to the Financial Statements

for the period ended 31 January 2023

1. General Information

The Company was incorporated under the laws of the Grand Duchy of Luxembourg as an investment company (Société d'Investissement à Capital Variable or "SICAV") on 21 July 2009 with different compartments (hereafter called a "Portfolio"). Within each Portfolio, various Classes of Shares may be issued. Each Portfolio consists of securities, cash and other sundry assets and liabilities. The accompanying Financial Statements present the assets and liabilities of the individual Portfolios and of the Company taken as a whole. The Financial Statements of each individual Portfolio are expressed in the currency designated in the prospectus for that particular Portfolio and the Financial Statements of the Company are expressed in US Dollar ("USD"). The financial statements have been prepared in accordance with the format prescribed by the Luxembourg authorities for Luxembourg investment companies under the going concern basis of accounting.

The combined financial statements of the Company are expressed in USD.

The combined statement of net assets and the combined statement of operations and changes in net assets are the sum of the statements of each Portfolio.

The Company is an officially registered investment fund under Part I of the 2010 Law, as amended and qualifies as a UCITS fund under the amended European directive 2009/65/EC.

The Company seeks to provide a comprehensive range of Portfolios with the purpose of spreading investment risk and satisfying the requirements of investors seeking to emphasise income, capital conservation and/or capital growth.

The Company offers investors, within the same vehicle, a choice of investments in one or more Portfolios. The Company may issue different Classes of Shares in one or several Portfolios. Details of the characteristics of such share classes, if and when offered, by one or several Portfolios will be determined by the Directors of the Company (the "Directors" and each a "Director").

As at 31 January 2023, the Company was comprised of the following Portfolios:

HSBC Portfolios – World Selection 1

HSBC Portfolios – World Selection 2

HSBC Portfolios – World Selection 3

HSBC Portfolios – World Selection 4

HSBC Portfolios – World Selection 5

2. Share Capital

The Company currently offers the following classes of shares:

Class	Description
Class A	A Shares are available to all investors.
Class B	B Shares are available to sub-distributors who are prohibited from accepting and retaining inducements from third parties under applicable laws and regulations or court rulings, such as in the United Kingdom or the Netherlands; or sub-distributors who have a separate fee arrangement with their clients in relation to the provision of investment services and activities (for example, in the European Union, services and activities performed under MiFID II) and who have opted to not accept and retain inducements from third parties.
Class E	E Shares will be available in certain countries, subject to the relevant regulatory approval, through specific distributors selected by the Distributor on application to the Company.
Class S*	S Shares are available through distributors selected by the Distributor provided that the investors qualify as institutional investors within the meaning of article 174 of the 2010 Law, as amended.
Class X	X Shares are available through distributors selected by the Distributor provided that the investors qualify as institutional investors within the meaning of article 174 of the 2010 Law, as amended.
Class Z	Z Shares are available to investors having entered into a discretionary management agreement with an HSBC Group entity and to investors subscribing via distributors selected by the Distributor provided that such investors qualify as institutional investors within the meaning of article 174 of 2010 Law, as amended.

* Successive issue of Classes S Shares are numbered 1, 2, 3, etc. and respectively referred to as S1, S2, S3 etc. A series of Class S Shares may be issued in one or more Portfolios and each series may or may not be available in all Portfolios.

Notes to the Financial Statements

for the period ended 31 January 2023 (continued)

2. Share Capital (continued)

Within each share class of a Portfolio, the Company is entitled to create different sub-classes, distinguished by their class name, by their distribution policy (Capital-Accumulation (“C”), Distribution (“D”), Quarterly Distribution (“Q”) and Monthly Distribution (“M”) shares), their reference currency, their hedging activity (“H”) and/or by any other criterion to be stipulated by the Board of Directors of the Company.

Within each share class of a Portfolio, separate currency hedged classes may be issued (suffixed by “H” and the currency into which the Base Currency is hedged e.g. “HEUR” or “HGBP”) which seek to minimise the effect of currency fluctuations between the reference currency of the share class and the base currency of the relevant Portfolio. Any fees relating to carrying out the administration of the currency hedging policy will be borne by the relevant currency hedged class.

Within each share class of a Portfolio, Pay-Out share classes may be offered as Fixed Pay-Out shares (suffixed by “FIX”) and Flexible Pay-Out shares (suffixed by “FLX”). The dividend rate on Fixed Pay-Out Shares may either be (i) based upon a pre-determined fixed percentage of the Net Asset Value per Share or (ii) set at a pre-determined fixed dividend rate per share with the aim of paying a fixed monetary amount. The dividend rate on Flexible Pay-Out shares is based upon the Portfolio’s long-term expected income and net capital gains (both realised and unrealised) (the “Expected Return”) which is attributable to the Flexible Pay-Out shares. Dividends will be paid gross of fees and expenses and may be paid gross of taxes. The “Expected Return” will vary over time and consequently the dividend rate will be adjusted. The Board of Directors may decide, as its discretion, to make adjustments to the dividend rate at any time on each share class. Only FLX share classes are active as at 31 January 2023.

Within each share class of a Portfolio, the Management Company may decide to issue share classes having a different reference currency than the base currency of the Portfolio and which denotes the currency in which the net asset value per share of the share class will be calculated. A share class’ reference currency is identified by a standard international currency acronym added as a suffix e.g. “ACEUR” for a Capital Accumulation Share class expressed in Euro”.

Investment Minima:

Class of Shares	A, B and E*			S ₁ *			X and Z*		
	USD	EUR	GBP	USD	EUR	GBP	USD	EUR	GBP
Minimum initial investment and minimum holding	5,000	5,000	5,000	10,000,000	10,000,000	10,000,000	1,000,000	1,000,000	1,000,000
Minimum subsequent investment	1,000	1,000	1,000	1,000,000	1,000,000	1,000,000	100,000	100,000	100,000

* or equivalent to USD amount in any other Dealing Currencies or Share Class Reference Currencies.

3. Accounting Policies

The following accounting policies have been used consistently in dealing with items which are considered material in relation to the Company’s financial statements.

a) Accounting Convention

The financial statements have been prepared under the historical cost convention modified by the revaluation of investments.

b) Assets and Portfolio Securities Valuation

Securities are initially recognised at cost, being the fair value of the consideration given.

All purchases and sales of securities are recognised on the trade date, i.e. the date the Company commits to purchase or sell the security.

Portfolio securities and/or financial derivative instruments which are listed on an official stock exchange are valued at the last available stock price. Where such securities or other assets are quoted or dealt in or on more than one stock exchange or other organised markets, the Board of Directors shall select the principal of such stock exchanges or markets for such purposes. Shares or units in undertakings for collective investment the issue or redemption of which is restricted and in respect of which a secondary market is maintained by dealers who, as principal market-makers, offer prices in response to market conditions may be valued by the Board of Directors in line with such prices.

Notes to the Financial Statements

for the period ended 31 January 2023 (continued)

3. Accounting Policies (continued)

b) Assets and Portfolio Securities Valuation (continued)

Shares or units in open-ended undertakings for collective investment, which do not have a price quotation on a regulated market, will be valued at the actual net asset value for such shares or units as of the relevant dealing day, failing which they shall be valued at the last available net asset value which is calculated prior to such dealing day. In the case where events have occurred which have resulted in a material change in the net asset value of such shares or units since the last net asset value was calculated, the value of such shares or units may be adjusted at their fair value in order to reflect, in the reasonable opinion of the Board of Directors, such change.

The financial derivative instruments which are not listed on any official stock exchange or traded on any other organised market are valued in a reliable and verifiable manner on a daily basis and verified by a competent professional appointed by the Company.

The Financial Statements are presented on the basis of the net asset value calculated on 31 January 2023.

Futures Contracts

Upon entering into a futures contract, the Company is required to deposit with the broker, cash or securities in an amount equal to a certain percentage of the contract amount which is referred to as the initial margin account. Subsequent payments, referred to as variation margin, are made or received by each Portfolio periodically and are based on changes in the market value of open futures contracts.

The unrealised appreciation/(depreciation) on future contracts is disclosed in the statement of net assets under "Net unrealised appreciation on futures contracts". Changes in the market value of open futures contracts are recorded as "Net change in unrealised appreciation/(depreciation) on derivatives" in the statement of changes in net assets. Realised gains or losses, representing the difference between the value of the contract at the time it was opened and the value at the time it was closed, are reported at the closing or expiration of futures contracts in the statement of changes in net assets under "Net realised gains/(losses) on derivatives". Securities deposited as initial margin account are designated in the statement of investments and cash deposited is recorded under cash at bank and at broker in the statement of net assets. A receivable and/or a payable to brokers for the daily variation margin is also recorded in the statement of net assets.

Forward Foreign Exchange Contracts

The values of the forward foreign currency exchange contracts are adjusted daily based on the applicable exchange rate of the underlying currency. Changes in the value of these contracts are recorded as unrealised appreciation or depreciation until the contract settlement date. When the forward contract is closed, the Portfolio records a realised gain or loss equal to the difference between the value at the time the contract was opened and the value at the time it was closed.

The unrealised appreciation/(depreciation) on forward foreign exchange contracts is disclosed in the statement of net assets under "Net unrealised gain on forward foreign exchange contracts". Realised gains and change in unrealised appreciation resulting there from are included in the statement of changes in net assets respectively under "Net realised gains/(losses) on derivatives" and "Net change in unrealised appreciation/(depreciation) on derivatives".

Credit Default Swaps

A credit default swap is a credit derivative transaction in which two parties enter into an agreement, whereby one party (the protection buyer) pays the other (the protection seller) a fixed periodic coupon for the specified life of the agreement in return for a payment contingent on a credit event related to the underlying reference obligation.

If a credit event occurs, the protection seller would be obliged to make a payment, which may be either: (i) a net cash settlement equal to the notional amount of the swap less the auction value of the reference obligation or (ii) the notional amount of the swap in exchange for the delivery of the reference obligation. Selling protection effectively adds leverage to a Fund's portfolio up to the notional amount of swap agreements.

Credit default swaps are marked to market at each NAV calculation date. The market value is based on the valuation elements laid down in the contracts, and is obtained from third party pricing agents, market makers or internal models.

The unrealised appreciation is disclosed in the statement of net assets under "Net unrealised appreciation on swaps". Realised gains/(losses) and change in unrealised appreciation/(depreciation) resulting there from are included in the statement of operations and changes in net assets respectively under the heading "Net realised gains/(losses) on derivatives" and "Net change in unrealised appreciation/(depreciation) on derivatives".

c) Income and Expenses

Interest is accrued on a day-to-day basis. Dividends are accounted for on an ex-dividend basis.

Expenses are recognised on an accrual basis.

Notes to the Financial Statements

for the period ended 31 January 2023 (continued)

3. Accounting Policies (continued)

d) Foreign Exchange

The cost of investments, income and expenses in currencies other than the Company relevant reporting currency have been recorded at the rate of exchange ruling at the time of the transaction. The market value of the investments and other assets and liabilities in currencies other than the relevant reporting currency has been converted at the rates of exchange ruling at the date of these financial statements. The exchange rates used as at 31 January 2023 are as follows:

USD/AUD	:	1.41914
USD/CAD	:	1.33435
USD/CHF	:	0.91875
USD/CNH	:	6.75680
USD/CNY	:	6.75695
USD/DKK	:	6.84980
USD/EUR	:	0.92077
USD/GBP	:	0.81228
USD/HKD	:	7.83855
USD/JPY	:	130.04500
USD/SEK	:	10.46980
USD/SGD	:	1.31435

e) Realised Profit/(Loss) on Sale of Investments

Realised profit/(loss) on sale of investments is the difference between the historical average cost of the investment and the sale proceeds.

f) Segregated Liability

The Company has segregated liability between its Portfolios; meaning, the assets of a Portfolio are exclusively available to satisfy the rights of shareholders in relation to that Portfolio and the rights of creditors whose claims have arisen in connection with the creation, operation and liquidation of that Portfolio.

g) Dividends Payable

Dividends payable by the Company are recorded on the ex-date.

h) Net Asset Value per Share

The net asset value per share of the Company (the "Net Asset Value per Share") is calculated by dividing the net assets of the relevant Class of Shares in a Portfolio included in the Statement of Net Assets by the number of Shares of the relevant class in that Portfolio in issue at the period end.

The Directors adopted a Pricing Adjustment Policy on 10 June 2014, details of which are disclosed in section 2.6 (3) "Pricing Adjustment" of the current Prospectus of the Company. The Directors have not implemented this policy and there were no pricing adjustments during the period.

4. Charges and Expenses

a) Management Fee

The Company pays to the Management Company an annual management fee calculated as a percentage of the net asset value of each Portfolio or share class ("Management Fee"). The Management Fee is accrued daily and payable monthly in arrears. The fee rate per annum actually charged and applicable to each Class of Shares is set below:

▶ HSBC Portfolios – World Selection 1	
Class A Shares	1.000%
Class B Shares	0.500%
Class E Shares	1.300%
Class S ₁ Shares	0.250%
Class X Shares	0.500%
Class Z Shares	0.000%

The Management Fee covers management, advisory and distribution services provided in relation to the relevant Portfolio of the Company by the Management Company, the Investment Advisers and the Share Distributors. The Management Company is responsible for discharging, out of such fee, the fees of the Investment Advisers and the Share Distributors and may pay part of such fee to recognised intermediaries or such other person as the Management Company may determine, at its discretion.

The Management Company may instruct the Company to pay a portion of the Management Fee directly out of the assets of the Company to any of such service providers. In such case the Management Fee due to Management Company is reduced accordingly.

The Management Company is also acting as a management company for other investment funds, namely HSBC AdvantEdge plc, HSBC ETF plc, HSBC Global Funds ICAV plc, HSBC Global Investment Funds, HSBC Global Liquidity plc, HSBC Islamic Funds, HSBC Real Economy Green Investment Opportunity GEM Bond Fund, HSBC Global Infrastructure Debt Fund SCSP Master Fund, HSBC Global Infrastructure SCA SICAV-RAIF - High Yield USD compartment, HSBC Senior Infrastructure Debt Master Fund SCSP, HSBC Global RAIF funds, HSBC Global Infrastructure Debt Fund (High Yield) SCSp (Infradebt global), Red Hexagon Infrastructure Debt Fund SA SICAV RAIF.

The Company has invested in other HSBC promoted funds, which include the following funds:

HSBC American Index "Institutional Acc"

HSBC Coporate Bond Fund Institutional Income

HSBC European Index "Institutional Acc"

HSBC FTSE All World Index "Institutional Acc"

HSBC Global Funds ICAV Global Emerging Market Government Bond Index

HSBC Global Investment Funds - Asia High Yield Bond "ZQ1"

Notes to the Financial Statements

for the period ended 31 January 2023 (continued)

4. Charges and Expenses (continued)

a) Management Fee (continued)

HSBC Global Investment Funds - Global Corporate Bond "ZQ"

HSBC Global Investment Funds - Global Emerging Markets Bond "ZQ"

HSBC Global Investment Funds - Global Emerging Markets Local Debt "ZQ"

HSBC Global Investment Funds - Global Government Bond "ZQ"

HSBC Global Investment Funds - Global High Yield Bond "ZQ"

HSBC Global Investment Funds - Global Inflation Linked Bond "ZQ"

HSBC Global Investment Funds - Global Infrastructure Equity "ZD"

HSBC Global Investment Funds - Global Real Estate Equity "ZQ"

HSBC Global Investment Funds – Global Short Duration Bond "ZQ"

HSBC Global Investment Funds - Multi-Asset Style Factors "ZC"

HSBC Japan Index "Institutional Acc"

HSBC MSCI Emerging Markets UCITS ETF

HSBC MSCI Pacific ex Japan UCITS ETF

HSBC S&P 500 UCITS ETF

The management fee rate applicable to the above underlying funds' share classes is nil.

HSBC Global Liquidity Funds - US Dollar Liquidity Fund "Y"

HSBC Multi Factor Worldwide Equity UCITS ETF

The above underlying funds are subject to a single fee, referred to as the "Total Expense Ratio" or "TER" which covers all fees and expenses except transaction charges and taxes or duties for portfolio rebalancing. The maximum TER applicable to each underlying fund is 0.25% per annum.

b) Operating, Administrative and Servicing Expenses

There are certain operating, administrative and servicing expenses ('the expenses') incurred throughout the lifetime of a Portfolio or share class. These expenses are associated with services rendered to a relevant Portfolio which are overseen by either the Management Company or the Company. Many of the services are delegated to other service providers who are paid directly by the Company.

Operating, administrative and servicing expenses cover the ongoing depositary fees and safekeeping charges payable to the Depositary Bank and its correspondent banks, fees for fund accounting and administration services (including domiciliary services) payable to the Administrative Agent and transfer agency fees for registrar and transfer agency services payable to the Transfer Agent.

Operating, administrative and servicing expenses also cover expenses relating to the Luxembourg asset-based *taxe d'abonnement*; reasonable out-of-pocket expenses incurred by the Board of Directors; legal expenses for advice on behalf of the Company; audit fees; ongoing registration and listing fees (if applicable); the costs of preparing, printing, translating and distributing the Company's Prospectus, financial reports, statements and other documents made available directly or through intermediaries to its shareholders. These expenses also cover formation expenses for current and new Portfolios including initial registration fees (these expenses are amortised over a period not exceeding 5 years from the formation date of the Portfolio). The only operating expenses which are not covered by the fee rate paid to the Management Company and which are included under this caption are 'hedging fees' incurred by the respective portfolios for hedging the different share classes.

The Company pays the expenses directly to the service providers and as such the ongoing charge for each share class will vary. The expenses paid by the Company will not exceed 0.25% of the net assets per annum on a rolling basis of each share class. Where actual expenses exceed 0.25% per annum, the excess will be borne directly by the Management Company or by HSBC Global Asset Management distributors.

The expenses will be accrued daily and will be payable monthly in arrears. The accrual amount will be reviewed each quarter using the previous 12 months' expenses as an initial basis and amending when necessary.

Notes to the Financial Statements

for the period ended 31 January 2023 (continued)

4. Charges and Expenses (continued)

c) Directors' Fees, Expenses and Interests

A Director may be a party to, or otherwise interested in, any transaction or arrangement with the Company or in which the Company is interested, provided that he has disclosed to the other Directors, prior to the conclusion of any such transaction or arrangement, the nature and extent of any interest of his therein. Subject to approval of the Board, a Director may vote in respect of any contract or arrangement or any proposal whatsoever in which he has an interest, having first disclosed such interest. He shall not be disqualified by his office from contracting with the Company. If a Director declares his interest in any contract which the Company is considering entering into, he may be counted in the quorum of any meeting to consider the contract and may vote on any resolution to enter into such contract, provided that the decision to be taken by the Board of Directors relates to the current operations entered into under normal conditions.

From 1st January 2022 to 31st December 2022 the Company pays an annual fee to each of the Independent Directors amounting to EUR 15,000. From 1st January 2023 the Company pays an annual fee to each of the Independent Directors amounting to EUR 20,000. This amount is paid by the Management Company through the operating, administrative and servicing expenses paid by the Company. The amount of operating, administrative and servicing expenses is accrued with every net asset value calculation and paid quarterly in arrears. For the period-end as at 31 January 2023, a total of EUR 23,500 has been charged as Independent Directors' fees.

5. Taxation of the Company

The following is based on the Company's understanding of the law and practice currently in force in the Grand Duchy of Luxembourg and is subject to changes therein.

The Company is not subject to taxation in Luxembourg on its income, profits or gains.

The Company is not subject to net wealth tax in Luxembourg. No stamp duty, capital duty or other tax will be payable in Luxembourg upon the issue of the Shares of the Company.

The Portfolios are nevertheless, in principle, subject to a subscription tax (taxe d'abonnement) levied at the rate of 0.05% per annum based on its NAV at the end of the relevant quarter, calculated and paid quarterly.

A reduced subscription tax rate of 0.01% per annum is however applicable to any Portfolio whose exclusive object is the collective investment in money market instruments, the placing of deposits with credit institutions, or both. A reduced subscription tax rate of 0.01% per annum is also applicable to any Portfolio or Share Class provided that their shares are only held by one or more institutional investors within the meaning of article 174 of the 2010 Law, as amended (an "Institutional Investor").

A subscription tax exemption applies to:

- a) The portion of any Portfolio's assets (prorata) invested in a Luxembourg investment fund or any of its Portfolio to the extent it is subject to the subscription tax;
- b) Any Portfolio (i) whose securities are only held by Institutional Investor(s), and (ii) whose sole object is the collective investment in money market instruments and the placing of deposits with credit institutions, and (iii) whose weighted residual portfolio maturity does not exceed 90 days, and (iv) that have obtained the highest possible rating from a recognised rating agency. If several Share Classes are in issue in the relevant Portfolio meeting (ii) to (iv) above, only those Share Classes meeting (i) above will benefit from this exemption;
- c) Any Portfolio, whose main objective is the investment in microfinance institutions;
- d) Any Portfolio, (i) whose securities are listed or traded on a stock exchange and (ii) whose exclusive object is to replicate the performance of one or more indices. If several Share Classes are in issue in the relevant Portfolio meeting (ii) above, only those Share Classes meeting (i) above will benefit from this exemption; and
- e) Any Portfolio only held by pension funds and assimilated vehicles.

Withholding tax

Interest and dividend income received by the Company may be subject to non-recoverable withholding tax in the source countries. The Company may further be subject to tax on the realised or unrealised capital appreciation of its assets in the countries of origin. The Company may benefit from double tax treaties entered into by Luxembourg, which may provide for exemption from withholding tax or reduction of withholding tax rate.

Distributions made by the Company as well as liquidation proceeds and capital gains derived therefrom are not subject to withholding tax in Luxembourg.

Notes to the Financial Statements

for the period ended 31 January 2023 (continued)

6. Dividends

The Company paid the following dividends during the period ended 31 January 2023:

Certain share classes in issue as at 31 January 2023 have had UK Reporting Fund status since 1 August 2015. Details of the share classes that have UK Reporting Fund status can be found on the HM Revenue & Customs website (www.hmrc.gov.uk).

At the date of this Report, the status can be found at <https://www.gov.uk/government/publications/offshore-funds-list-of-reporting-funds>.

Notes to the Financial Statements

for the period ended 31 January 2023 (continued)

7. Soft Commission Arrangements

The Investment Adviser of the Portfolios may from time to time receive goods and services which are paid for out of broker commissions provided that they relate to execution and research services which meet the criteria laid down by United Kingdom's Financial Conduct Authority Rules.

There were no soft commissions paid or accrued during the period.

8. Cash collateral information

As at 31 January 2023, the Company has paid/(received) the following cash collateral:

Portfolio	Counterparty	Instrument Type	Currency	Cash Collateral in Portfolio currency
HSBC Portfolios - World Selection 1				
	J.P Morgan, London	Credit Default Swaps	USD	529,950
HSBC Portfolios - World Selection 2				
	Goldman Sachs	Credit Default Swaps	USD	280,000
	J.P Morgan, London	Credit Default Swaps	USD	290,000

9. Transactions with Connected Persons

(a) Bank Accounts and Deposits with Related Parties

Bank accounts are maintained and deposits are made with HSBC Bank Plc, London, a member of HSBC Group. Details of such bank balances and deposits held as at 31 January 2023 and interest income earned from the deposits during the period then ended are shown below.

	HSBC Portfolios – World Selection 1 USD	HSBC Portfolios – World Selection 2 USD	HSBC Portfolios – World Selection 3 USD	HSBC Portfolios – World Selection 4 USD	HSBC Portfolios – World Selection 5 USD

Average rate of commission	0.001%	0.001%	0.001%	0.001%	0.001%

Notes to the Financial Statements

for the period ended 31 January 2023 (continued)

10. Transaction Costs

For the period from 1 August 2022 to 31 January 2023, the Company incurred transaction costs related to purchase or sale of securities and derivative products as follows:

HSBC Portfolios - World Selection 1	USD 8,514
HSBC Portfolios - World Selection 2	USD 19,426
HSBC Portfolios - World Selection 3	USD 29,730
HSBC Portfolios - World Selection 4	USD 23,597
HSBC Portfolios - World Selection 5	USD 16,109

The above transaction costs include costs directly linked to the acquisition or sale of investments, to the extent that such costs are shown separately on transaction confirmations.

Transaction costs are incorporated directly in dealing prices of assets and are not reported as a separate line in the Statement of Operations.

11. List of Movements in the Investment Portfolio

The detailed list on movements in the investment portfolio can be obtained free of charge upon request at registered office of the Company.

12. Global Exposure

The global risk on derivatives has been determined according to the commitment approach during the financial year ended 31 January 2023.

13. Significant Events

Impact of Pandemics

Pandemics can impact global markets in several ways, including: (i) adding ongoing uncertainty to global markets as there is currently no clarity as to how long the pandemic will continue; (ii) impeding regular business operations across many different businesses, including manufacturers and service providers; and (iii) slowing down or stopping international, national, and local travel. By way of an example, all of these factors and more have been seen in recent years with the global outbreak of COVID-19. Notwithstanding that COVID-19 cases are again on the rise coupled with a risk of new variants, the initial impact on the global markets on certain industries has started to lessen however, the financial impact of the outbreak to date, and whether or not any new variant will give rise to further challenges, cannot be estimated reliably. The Board continues to monitor the situation and receives regular updates from the Management Company. As at 31 January 2023, to our knowledge, the impact of COVID-19 has not affected the investment Managers' ability to execute the investment strategy of the Portfolios, nor has there been interruption to key service providers engaged by the Company.

Russia's invasion of Ukraine

Russia's invasion of Ukraine has had, and could continue to have, severe adverse effects on regional and global economic markets for securities and commodities. Following Russia's actions, various governments have issued broad-ranging economic sanctions against Russia including, among other actions:

- A prohibition on doing business with certain Russian companies, large financial institutions, officials and oligarchs;
- The removal by certain countries and the European Union of selected Russian banks from the Society for Worldwide Interbank Financial Telecommunications ("SWIFT"), the electronic banking network that connects banks globally; and
- restrictive measures to prevent the Russian Central Bank from undermining the impact of the sanctions.

The current events, including sanctions and the potential for future sanctions, which include (but not limited to) those impacting Russia's energy sector, and other actions, and Russia's retaliatory responses to those sanctions and actions, could continue to have, an adverse effect on global markets performance and liquidity, thereby negatively affecting the value of the portfolios' investments beyond any direct exposure to Russian issuers. They also give rise to material uncertainty and risk with respect to markets globally and the performance of the Portfolios and their investments or operations could be negatively impacted. Investors should be aware that the duration of the ongoing hostilities and the vast array of sanctions and related events cannot be predicted. The Company does not have any exposure to Russian securities.

14. Subsequent Events

There were no events subsequent to the semi-annual report date which would require adjustments to or disclosures in these financial statements.

Appendix I (Additional Disclosures)

– Taxation of the Company (foreign countries)

The following summary is based on the Company's understanding of the law and practice currently in force in other jurisdictions and is subject to changes therein.

Germany

The Management Company aims to manage the Portfolios listed below in accordance with the so-called partial exemption regime for equity funds under Sec. 20 para. 1 of the German Investment Tax Act (as in effect since 1 January 2018).

Accordingly, the Portfolios listed below will seek to continuously invest a minimum percentage of their net assets in equity assets as defined in sec. 2 para 8 German Investment Tax Act (2018).

% of Portfolios' Net Assets	Portfolios
At least 51%	HSBC Portfolios - World Selection 5
At least 25%	HSBC Portfolios - World Selection 3
At least 25%	HSBC Portfolios - World Selection 4

United Kingdom

On the basis that the Company is not resident in the United Kingdom for tax purposes it should not be subject to United Kingdom corporation tax on its income and capital gains.

In many markets the Company, as a foreign investment fund, may be subject to non-recoverable tax on income and gains (either by withholding or direct assessment) in relation to the investment returns it realizes from its holdings of shares and securities in those markets. Where practicable the Company will make claims under the relevant double tax treaties and domestic law of the countries concerned in order to minimize the impact of local taxation on the investment return and to obtain the best return for its shareholders. Those claims will be made on the basis of the Company's understanding of the validity of such claims given the information available from the Company's custodians, external advisers and other sources as to the interpretation and application of the relevant legal provisions by the tax authorities in the country concerned.

The Company will seek to provide for tax on capital gains where it considers that it is more likely than not that the tax will be payable, given the advice and information available to the Company at the date concerned. However, any provision held may be insufficient to cover, or be in excess of, any final liability.

The Company will seek to claim concessionary tax treatment and account for tax on a best efforts basis, given the tax law and practice at that date. Any change in tax law or practice in any country where the Company is registered, marketed or invested could affect the value of the Company's investments in the affected country.

In particular, where retrospective changes to tax law or practice are applied by the legislature or tax authorities in a particular country these may result in a loss for current Shareholders in the affected Portfolio. The Company does not offer any warranty as to the tax position of returns from investments held in a particular market nor of the risk of a retrospective assessment to tax in a particular market or country.

Appendix II (Additional Disclosures)

– UK SORP Disclosure

Investment Risk

Information in relation to certain investment risks are disclosed for selected Portfolios as follows:

Market risk

Market risk is the risk that the fair value or future cash flows of financial instruments will fluctuate due to changes in market variables such as market prices, foreign exchange rates and interest rates. It comprises of three major types of risks i.e. currency risk, interest rate risk and other price risk.

As invested in securities and collective investment schemes, the Company is exposed to the risk that the equity and fixed income markets decline.

(i) Currency risk

Currency risk is the risk that the fair value or future cash flows of a financial asset will fluctuate because of changes in foreign exchange rates.

The below table summarises the following Portfolios' exposure to currency risks.

Portfolio	Currency	Net currency exposure in Portfolio currency
HSBC Portfolios - World Selection 1	EUR	123,958,584
	GBP	51,408,355
	Other	28,044,967
HSBC Portfolios - World Selection 2	EUR	135,280,397
	GBP	197,188,889
	Other	26,582,596
HSBC Portfolios - World Selection 3	EUR	202,463,060
	GBP	411,248,497
	Other	68,951,577
HSBC Portfolios - World Selection 4	EUR	392,069,058
	GBP	252,217,559
	Other	32,347,731
HSBC Portfolios - World Selection 5	EUR	200,377,026
	GBP	116,660,499
	Other	28,363,372

(ii) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial asset will fluctuate because of changes in market interest rates.

The following table details the below Portfolios' exposure to interest rate risks.

	HSBC Portfolios - World Selection 1 USD	HSBC Portfolios - World Selection 2 USD	HSBC Portfolios - World Selection 3 USD	HSBC Portfolios - World Selection 4 USD	HSBC Portfolios - World Selection 5 USD
Cash at bank and at broker	15,811,813	10,615,965	11,763,992	7,953,776	3,284,098
Bank overdraft	(471,528)	(450,216)	(5,439,899)	(1,947,364)	(715,435)
Bonds	153,890,008	111,605,876	-	-	-
Total	169,230,293	121,771,625	6,324,093	6,006,412	2,568,663

Appendix II (Additional Disclosures) – UK SORP Disclosure (continued)

Investment Risk (continued)

Market risk (continued)

(iii) Credit risk

The Company is subject to credit risk as the Portfolios invest in bonds.

Analysis of direct credit risk

	Currency	Investment grade	Non-investment grade	Unrated	Total
HSBC Portfolios - World Selection 1	USD	108,356,310	34,379,383	169,199,408	311,935,101
HSBC Portfolios - World Selection 2	USD	69,525,255	37,601,361	445,163,102	552,289,718
HSBC Portfolios - World Selection 3	USD	-	-	940,560,129	940,560,129
HSBC Portfolios - World Selection 4	USD	-	-	675,803,055	675,803,055
HSBC Portfolios - World Selection 5	USD	-	-	321,987,765	321,987,765

Credit risk arising on bonds is mitigated by investing in government bonds where the credit risk is minimal, or corporate bonds which are rated at least investment grade. The Portfolios also invest in high yield and emerging market bonds which are non-investment grade. The Portfolios manage the associated risk by diversifying the portfolio to minimise the impact of default by any one issuer.

(iv) Other price risk

Other price risk is the risk that the fair value or future cash flows of a financial asset will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting all similar financial instruments traded in the market.

Other price risk arises principally in relation to the Portfolios' return seeking portfolio which includes collective investment scheme.

The Portfolios manage this exposure to other price risk by constructing a diverse portfolio of investments across various markets.

At the period end, the exposure to investments subject to other price risk was:

HSBC Portfolios - World Selection 1		USD
Indirect		
Collective Investment Schemes		158,045,093
HSBC Portfolios - World Selection 2		USD
Indirect		
Collective Investment Schemes		440,683,842
HSBC Portfolios - World Selection 3		USD
Indirect		
Collective Investment Schemes		940,560,128
HSBC Portfolios - World Selection 4		USD
Indirect		
Collective Investment Schemes		675,803,055
HSBC Portfolios - World Selection 5		USD
Indirect		
Collective Investment Schemes		321,987,765

Investment Risk (continued)

Fair value hierarchy

Fair value is the amount for which an asset could be exchanged, a liability settled, or an equity instrument granted could be exchanged, between knowledgeable, willing parties in an arm's length transaction.

The fair value of financial instruments has been determined using the following fair value hierarchy:

Category (a) The quoted price for an identical asset in an active market.

Category (b) When quoted prices are unavailable, the price of a recent transaction for an identical asset adjusted if necessary.

Category (c) Where a quoted price is not available and recent transactions of an identical asset on their own are not a good estimate of fair value, the fair value is determined by using a valuation technique which uses:

Category (c) (i) observable market data; or

Category (c) (ii) non-observable data.

The Portfolio's investment assets and liabilities have been fair valued using the above hierarchy categories as follows:

Portfolio	Currency	Category (a)	Category (b)	Category c (i)	Category c (ii)	Total
HSBC Portfolios - World Selection 1	USD	154,006,138	153,918,517	-	-	307,924,655
HSBC Portfolios - World Selection 2	USD	112,260,592	436,471,907	-	-	548,732,499
HSBC Portfolios - World Selection 3	USD	128,909	940,179,237	-	-	940,308,146
HSBC Portfolios - World Selection 4	USD	(155,356)	675,374,288	-	-	675,218,932
HSBC Portfolios - World Selection 5	USD	(198,663)	321,842,500	-	-	321,643,837

Appendix III (Additional Disclosures) – Fund Holiday Calendar for 2023

All Portfolios have holidays on:

- ▶ all Saturdays and Sundays
- ▶ and on the following dates :

02	January	UK
07	April	Luxembourg, UK
10	April	Luxembourg, UK
01	May	Luxembourg, UK
08	May	UK
09	May	Luxembourg
18	May	Luxembourg
29	May	Luxembourg, UK
23	June	Luxembourg
15	August	Luxembourg
28	August	UK
01	November	Luxembourg
22	December	UK
25	December	Luxembourg, UK
26	December	Luxembourg, UK
29	December	UK

Shareholders who deal through the Company's local distributor or representative should note that there will be no dealing for the shares of the Company in the jurisdiction in which such distributor or representative operates on a day which is not a business day in such jurisdiction.

The Company will determine the fund holiday calendar according to the latest market information obtained by the Company from time to time. Shareholders can obtain the latest fund holiday calendar of the Company from the registered office of the Company or from the Company's local distributor or representative.
